

CARAVAN & CO
SS24 COLLECTION

WELCOME SPRING SUMMER 2024

Timeless, authentic, wearable, and always beautiful.

With a throughline influence of the 60's, the Caravan & Co Spring Summer 24 Collection sees the celebration of prints, colour, and the feminine silhouette.

Our Stella print story returns us to the geometric print play that we love, in a classic black hue and a pop of colour in a forest green. The Florence print story explores a fresh Italian influence with an eclectic blend of colours. Our Ella print story grounds the collection with its rich and moody colours, blended in the Shibori technique style.

This collection offers a contemporary and feminine approach to silhouettes that flatter the modern woman, whilst still giving a point of difference and elevation to their wardrobe.

Whilst we have continued with our signature fabrications, we have also introduced new crisp cotton poplin styles in solid colours to coordinate with each print story. The broadening of our sequin story, in a beautiful new shell colour that carries a strong 60's influence, will bring depth and just a touch of glamour to any wardrobe. Additionally, we have continued with the linen suiting in an oversized block that we believe your customers will love.

Overall, The Caravan & Co SS24 Collection is a reflection of the confident woman, who balances cool and elegance with ease.
